To Whom it may concern (which should be every citizen of the U.S.):
Please reject NAB's petition 04-160. It would be absolutely ridiculous to not allow this service to provide traffic and weather reports. In fact, I am having a hard time believing that this has become an issue in the first place. We have so many more pressing issues to think about than this. Please put this petition where it belongs: in the dumpster.

Thank you.

Larry Merritt-Gilbert
